If it is considered favorably it will then go before the grand jury at the April term of court and then before the judges. By an act of May, 1895, an appropriation is set aside for counties desiring to take up such a monument and thus the burden on the county is lightened. The petition, which was started only yesterday, has something like 100 signers, which shows the willingness of the public to aid in a cause which should have been taken up years ago.

He became enraged at the repeated refusals and deliberately threw a stone through the front window, completely smashing it.

### Charles Slowkosky, who works for Macnuskey, attacked Harry, and striking him with a blunt instrument, knocked him down.

The blow was a terrible one, which somewhat disfigured his face. An officer was summoned and the man was removed to the lockup, where he remained in custody in a short time.

### He would not give any information concerning the case. The above is Slowkosky's story of the affray.

The Sunday school institute of the Second district of Susquehanna county, which includes the towns of Union, Jermyn, Mayfield and Forest City and the townships of Ararat, Clifford and Herk, will be held in the Baptist and Methodist Episcopal churches at Clifford, on Tuesday, Feb. 16, instead of on Friday, as stated in this department yesterday.

### STORYETTES.

Pixley in the Times-Herald.

"Until a few years ago a little Wisconsin town was known simply as 'Hot Back,' from the peculiar shape of a hill near there," said a Milwaukee drummer.

"Finally the citizens had an indignation meeting to wipe out the plebeian name and choose a better one."

"It was decided to honor the place by giving it the name of the oldest settler, a man named King. Somebody suggested 'King's Mills' and another 'King'sville' and so on, but the old man himself objected. Then it was agreed to name the town for one of Mr. King's daughters. But he had seven of them, and jealousies promptly cropped out. At last some gentleman noticed that all the girls were 'red-headed,' and suggested 'Auburnville.' And Auburnville it is to this day."

### "The shortest railway line between Chicago and New York is the legend which ornaments a lithographed letterhead sent out from Chagrin Falls, O. An old fellow in that place who owns a stone quarry has built a railroad for freight purposes. It is only three miles long, but nevertheless it is long enough to claim standing as an active road. The line is incorporated, with the old man as president and his sons as directors."

## A MOTHER'S DUTY.

Your daughters are the most precious legacy possible in this life.

The responsibility for them, and their future, is largely with you.

The mysterious change that develops the thoughtful woman from the thoughtless girl, should find you on the watch day and night.

As you care for their physical well-being, so will the woman be, and so will her children be also.

Lydia E. Pinkham's "Vegetable Compound" is the sure reliance in this hour of trial. Thousands have found it the never-failing power to correct all irregularities and start the woman on the sea of life with that physical health all should have.

Womb difficulties, displacements and the horrors cannot exist in company with Lydia E. Pinkham's Vegetable Compound.
